Skills

- **Languages**: Java, JavaScript, Python, SQL
- **Stack/Technologies**: MongoDB, Express.js, React.js, Node.js, HTML5, CSS3, Tailwind CSS
- **Tools/Platforms**: Google Cloud Platform (GCP), AWS, Git/GitHub, Linux, Postman
- **Soft Skills**: Problem-Solving, Analytical Thinking, Adaptability, Team Collaboration, Communication

Projects

- **DevLog - Developer Project Tracker** | GitHub | Live — Feb' 26 – Mar' 26
  - Developed a full-stack MERN **developer portfolio tracker** enabling users to log, manage, and showcase their projects with a public shareable portfolio URL for recruiters.
  - Implemented secure **JWT-based authentication** with **bcrypt password hashing**, protected API routes, and persistent login sessions using localStorage and Axios interceptors.
  - Built an interactive dashboard with **real-time project analytics** using Recharts, including a **pie chart for project status** distribution and a bar chart for most-used technologies.
  - Integrated **Cloudinary** for persistent cloud-based image storage and designed a RESTful API with full CRUD operations, search and filter functionality, sticky notes, and profile management.
  - **Tech Stack Used**: MongoDB, Express.js, React.js, Node.js, JWT, Cloudinary, Recharts, Tailwind CSS.

- **Smart Classroom & Timetable Scheduler** | GitHub | Live — Oct' 25 – Nov' 25
  - Developed a fully interactive **web-based system** to manage faculty, subjects, and classrooms, and automate timetable generation for academic institutions.
  - Implemented **scheduling constraints** to prevent room clashes, faculty overload, and excessive consecutive lectures for **optimized timetable allocation**.
  - Designed a **responsive and user-friendly interface** using Tailwind CSS and handled dynamic **DOM manipulation** using JavaScript and jQuery.
  - Integrated **LocalStorage for persistent data management**, including faculty records, subject assignments, classroom details, and generated timetables.
  - Implemented **admin authentication** and **PDF export functionality** for secure access and reporting.
  - **Tech Stack Used**: HTML5, Tailwind CSS, JavaScript, jQuery, LocalStorage.

Training

- **Center for Professional Enhancement – Lovely Professional University** GitHub — Jun' 25 – Jul' 25
  Summer Training – Basics of Data Structures and Algorithms
  - **About**: Gained foundational knowledge of **Data Structures and Algorithms** and applied problem-solving skills through practical exercises.
  - Developed a **Tic-Tac-Toe game** project to demonstrate logical thinking and programming skills, earning an **O grade**.

Certificates

- Skill Certification Test in Java (Basic) | HackerRank | Link — Jan' 26
- Google Cloud Computing Foundations Certificate | Google Cloud | Link — Jul' 25
- Basics of Data Structures and Algorithms | Lovely Professional University | Link — Jul' 25

Achievements

- **Google Cloud Platform Leaderboard – Diamond League** — Jul' 25
  Ranked among top performers in Google Cloud Challenges, completing 30+ hands-on cloud skills.
- **AWS Student Community Day – Participant** — Nov' 25
  Attended cloud-focused technical sessions and workshops on AWS services and architecture.

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology (CSE – Cloud Computing) ***CGPA: 7.43*** — *Since Aug' 23*
- **Scholars Abode School** — Patna, Bihar
  Intermediate ***Percentage: 70%*** — *Apr' 22 – Mar' 23*
- **Scholars Abode School** — Patna, Bihar
  Matriculation ***Percentage: 70%*** — *Apr' 20 – Mar' 21*
